Betsy,

It was fun this year on the swim team,
especially the bus rides. I hope you start
next year, you are a good kid. Have a
nice summer & I'll see you next year.

Betsy,
I'm really glad we've
become better friends this
year. I guess it's cos
of Margie, huh? We
haven't been in any
classes together for quite
a time. Hopefully we'll
have better luck next
year. I've enjoyed
talking to you on the
bus & talking into school
every day. We've had some
really interesting conversations:
baby worms & worm names,
proms, problems with Margie
& Steve, sitting next to Chris
(my favorite bus partner!) and
lots of other things. I hope next
year we can get to know each
other even better cos I really
think you've got a great
personality. See you over the
summer & next year!

Lots of love,

Robin

 I hate empty

 writing this. Well one
 more year to go. It's hard
 to believe that next time ~~we'll~~
 be in school we'll be seniors. One more
 year to go. I can't wait for graduation.
 Seniors I can hardly believe it. It seems
 like I've been waiting for this 4-ever at last
 it's here. Well ^{the} Good Luck, Love, and Happiness will
 be yours in the future.

In the building we call "school," in
the experience called "education,"
we are more than empty vessels
waiting to be filled with names and
dates and formulas.

We are individuals, each person like
a puzzle assembled through
experience, by fitting pieces oddly
shaped, into a pattern that has
meaning and substance.

 It's been a
 great year & I'm
 sorry it's over. But at
 least we have the future to
 look forward to. I'm glad we've
 become friends this year. I want to
 wish you good luck & happiness always.
 Have fun & take care.
 Love, Diane*

The emptiness felt when the last
 two o'clock bus rolled away and
 there was no one left. The
 emptiness of the hallways
 because the cheerleaders were
 not practicing and the guys were
 not running. The isolation felt in
 the locker-rooms because there
 were no workouts. The general
 lack of spirit without any activities ...

Betsy,
I really glad
I got to know
you this year.
We had some
real great times

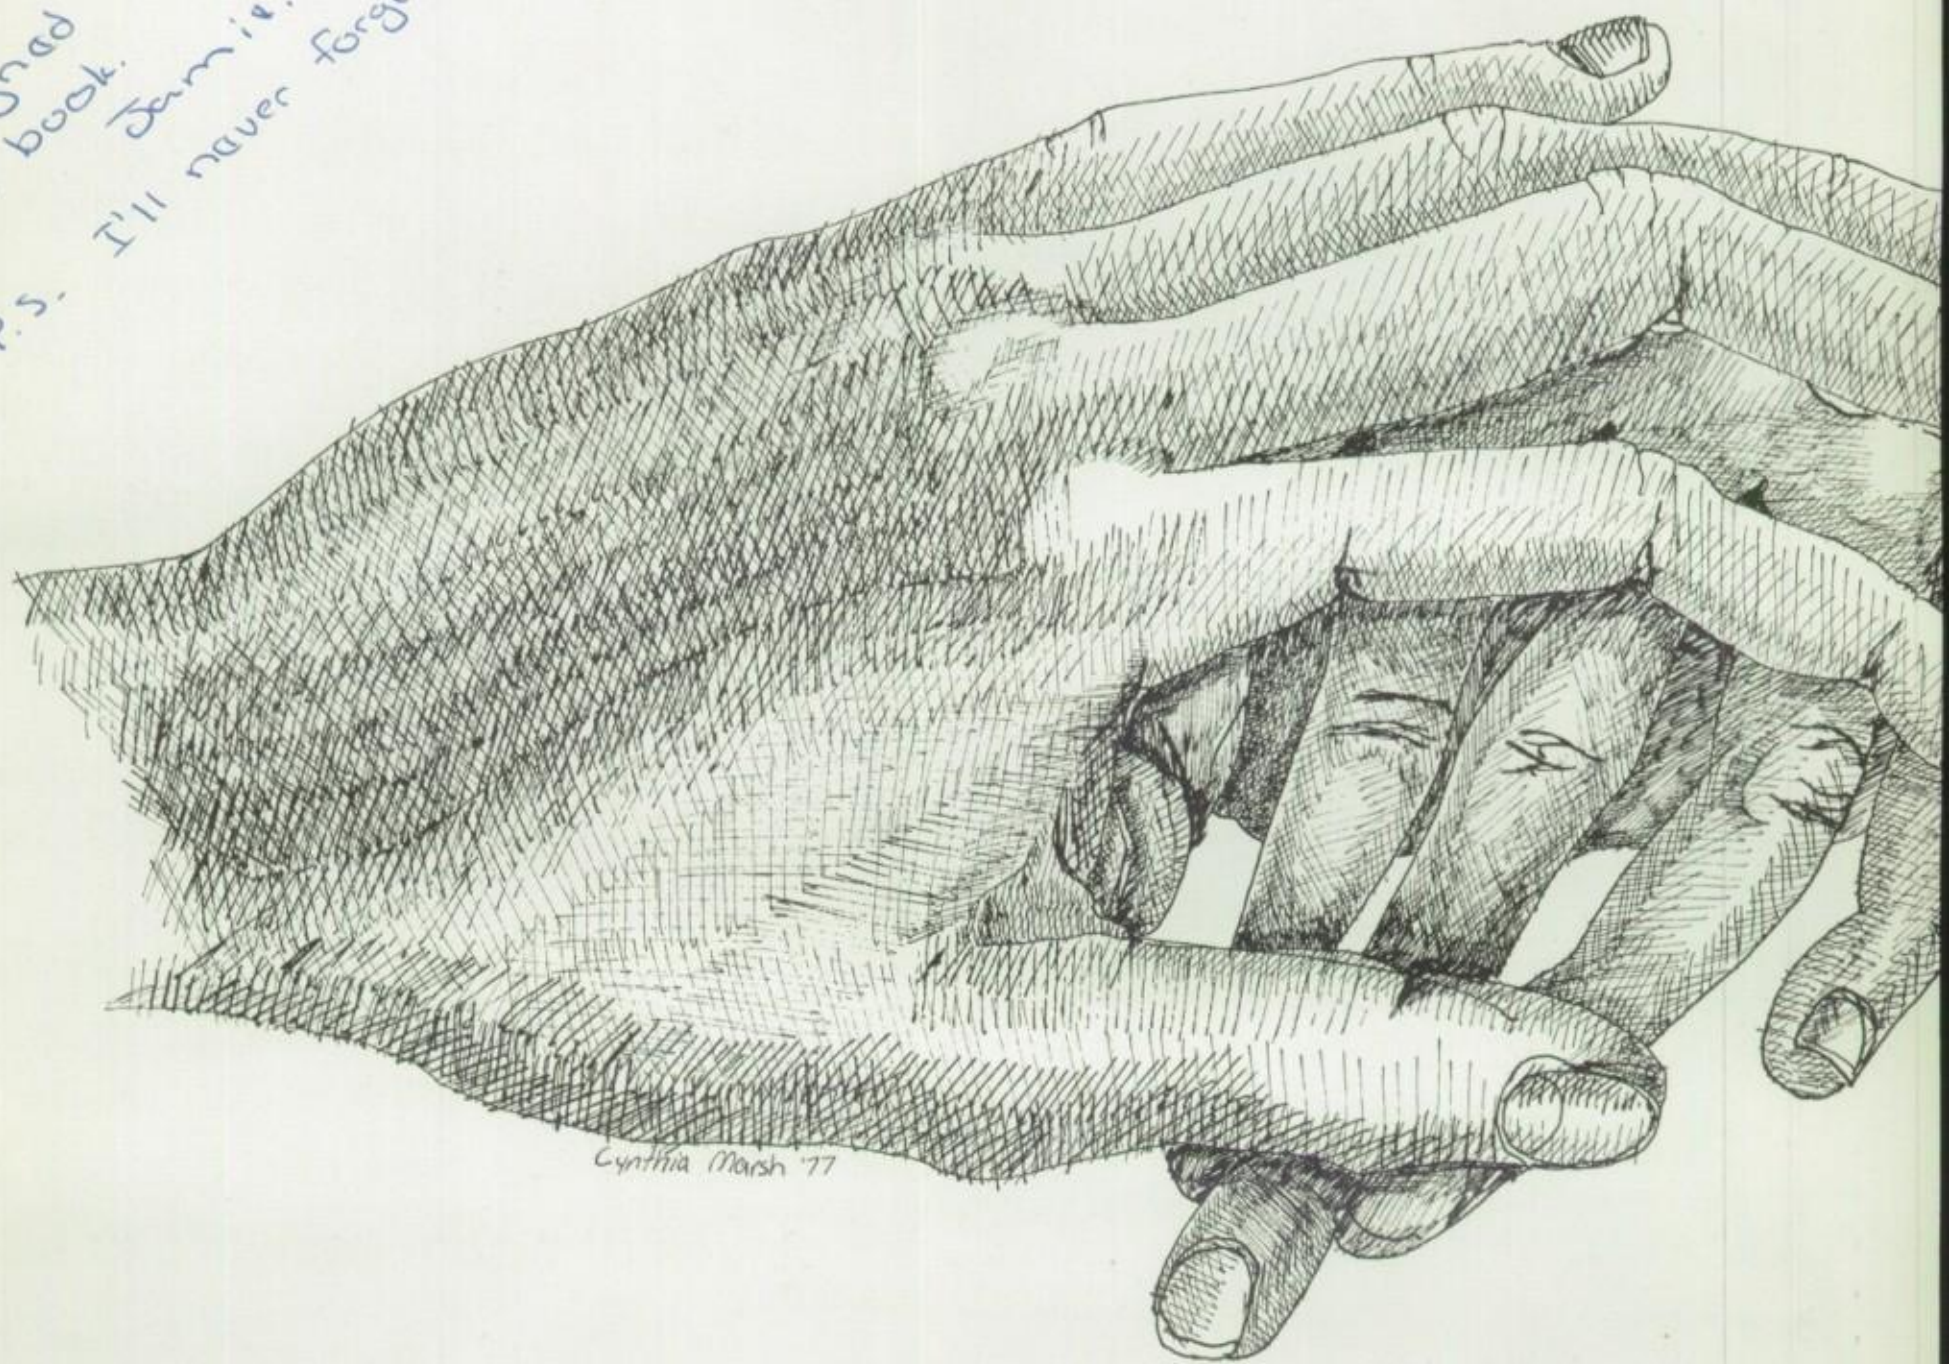

School can no longer be just
"readin', writin' and 'rithmetic".
Neither can it be the empty shell
of a building which holds our
bodies while all the necessary
facts are poured into our heads.
Rather, it must be a place for
living, laughing, learning and
growing. It is a place for choosing
to participate or observe, where
our choices color and define us.
We see ourselves reflected in
many mirrors so we can decide
what we like best and choose the
pieces of whom we want to be.

together.
As I open
my yearbook
many years
from now I
will always
remember
your face and
the memories
Best of luck
in whatever
your life brings
you.

parents of the class of '77

You have taught us how to be ourselves,
how to deal with others,
how to stand up for the ideals in which we
believe,
and most importantly,
how to face uncertainty without fear.

You have shown us the need for trust and
self-confidence,
you have brought us to this stage
and soon we'll be on our own,
but we know you will always care.
And so, for the many times
when you have "picked us up
and dusted us off",
we thank you.

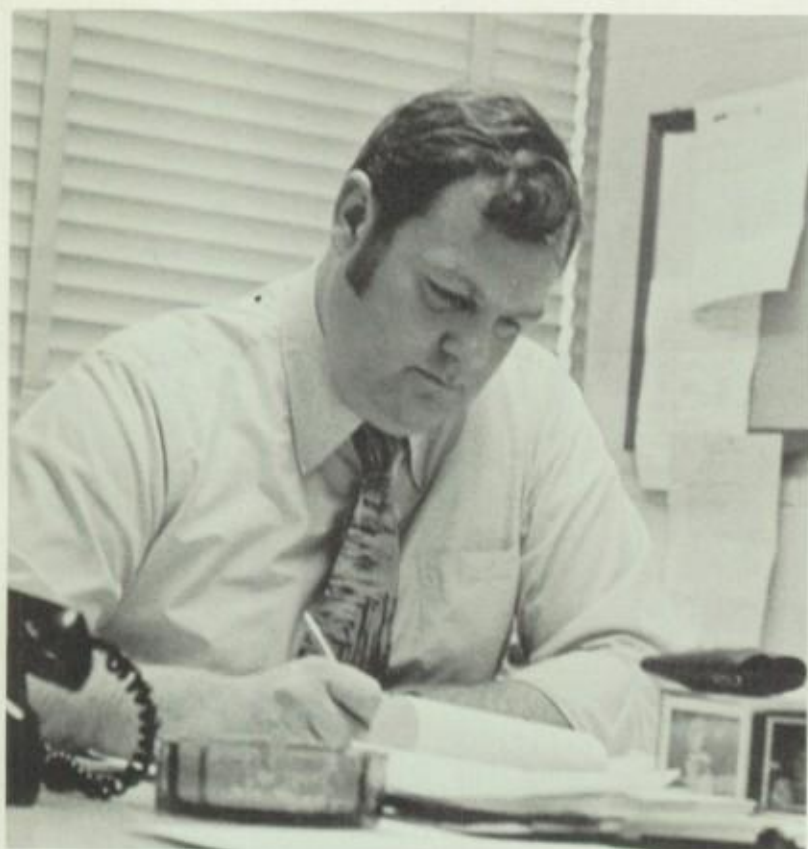

Thank you for your guidance,
for your unfailing help,
your tempered anger,
and most importantly,
your undying love.

We thank you for being you.

Some laugh, others are serious; some are sarcastic, others kind. Some are easy to like, and some we learn to live with. Many are wise as well as competent. It is in their diversity, as well as in their ability to relate their subjects to us, that we have another measure of our own potential, for they see in us, and perhaps help bring out in us, different interests and abilities than those we knew we had before.

Beginning at the bottom (again),
learning the rules, feeling as
though everyone is bigger than
you are, worrying about fitting in.

Finding that time seems to be
passing more quickly,
discovering people with whom
you can be comfortable, being
saddled with more work,
wondering if the end will ever be
in sight.

Making choices, making
mistakes, taking interminable
tests, waiting to be at the top.

Is there magic? Yes, the magic of courage and confidence and faith. A sense of magic filled with understanding and wisdom and humor, but above all exuding a sense of joy — the joy of being young and working together at something which brings a better relationship with one another and a sense of accomplishing something. This is a kind of learning that seems at least as rewarding as text book learning, for it is the continual contact with others in a relaxed atmosphere while playing, or arguing, or helping that broadens our horizons and enriches our emotions. This growing, made up of many small experiences, is what helps us come to understand a little better, not the world around us, but ourselves.

The release from sitting in classrooms, grueling practices, concentrating on one goal; learning to cope with tension, realizing we can depend on other people — and that they depend on us, sitting on the bench hoping to get in the game, watching the clock “run out,” experiencing the weariness of defeat and the shared exhilaration of winning; these and more are fragments of experience we can make our own.

Finally, it has all come together. The laughter, the frustrations, the pain, the triumphs, so much sharing, and so much searching. The gradual realization that there is much more in life to grasp — to think, to know, to feel, to appreciate. Having the feeling of starting all over again, but more secure in our directions and more sure of ourselves as people.

As graduation moves closer, we begin to think of the time we've spent here. As freshmen, we searched frantically for the right rooms and teachers. We stood in the crowded cafeteria and hoped for a friend.

As sophomores and juniors, we had pictures taken and took most of our major tests. We even had the choice in deciding our own prom theme, and began ordering school rings. Over-all, we made friends and had great times.

Now we're seniors, loving life and hoping — yet dreading — to grow up. We're still searching for the right passages and instructors as when we were freshmen, and we shall be searching our life-time — looking and ever striving to make our dreams come true. We glance around and see small traces of ourselves, and ask, "Is that really me?" As each day flashes by, we wonder about the next. What will happen? Where do we go from here?

So many memories are buried deep within our hearts, and we are both happy and sad about this growing up. We realize that life goes ever forward and that there is no return, and so we sadly say goodbye, good luck, and God bless.

And, to the Class of '77, from the Class of '77, "THE BEST."

Cynthia Marsh 1977

At the end — a final pulling together of the many experiences shared during these past years, an assembling of the numerous pieces which sets each apart and yet makes each a part of the whole. The realization comes that although we are learning and apparently finished, there remains a part of us yet to be awakened. Much has not been experienced but we have been assembled, as in a puzzle, and now it remains for us to enhance the picture and ensure its totality.
